SUMMARY

Final-year Computer Science student and AI Engineer building LLM applications, multi-agent systems, and multimodal AI projects. Research experience in medical AI at NITK and hands-on experience developing AI-powered products and full-stack systems. **CGPA: 9.50/10** and **1,000+ students trained** through AI and communication workshops.

TECHNICAL SKILLS

Languages: Python, SQL, TypeScript **AI/ML:** LLMs, Agentic AI, RAG, NLP, MCP, Transformers, PyTorch, Computer Vision

AI Systems: Multi-Agent Systems, Tool Calling **Development:** FastAPI, Next.js, React, PostgreSQL **Tools:** Git, GitHub, Docker

EXPERIENCE

Vitainspire – T-Hub

Jun 2026 – Present

AI Social Impact Fellow – AI Systems / Full-Stack Development

Hyderabad, Telangana

- Built an administrative dashboard using **Next.js, TypeScript, Prisma, and PostgreSQL** for NGO verification, project approval, compliance, and fraud investigation.
- Integrated **four AI agents** for compliance validation, fraud detection, document verification, and campaign review.
- Implemented human-approval workflows requiring a reason when administrators override an AI recommendation.

National Institute of Technology Karnataka (NITK)

May 2026 – Aug 2026

Research Intern – Medical AI / Deep Learning

Surathkal, Karnataka

- Studied research on **radiology report generation and multimodal medical AI** to identify the research gap addressed by the project.
- Designed and implemented the proposed **MedSwin-RRG architecture** for generating radiology reports from medical images and clinical concepts.
- Worked on visual feature extraction and clinical concept representation; the project is now in the **training and evaluation phase**.

PROJECTS

AIRA – AI Communication Platform

Oct 2025 – Present

Individual Project

- Built an LLM-powered interview-preparation platform with adaptive questioning and personalized feedback across six communication dimensions.
- Validated with **70+ users**, including students, educators, trainers, and professionals.

BlogAgent – Multi-Agent Content Pipeline

Mar 2026 – May 2026

Individual Project

- Built a **three-agent research, writing, and editing pipeline** generating complete blog drafts in approximately 6–7 minutes.
- Piloted with **20+ AI engineers, founders, and creators** and improved the workflow based on their feedback.

EDUCATION

Srinivas University Institute of Engineering and Technology (SUIET), Mangalore Oct 2023 – Mar 2027

B.Tech – Computer Science & Engineering

CGPA: 9.50 / 10

Guru Nanak Independent PU College, Bidar

2020 – 2022

Pre-University Course – PCMB

LEADERSHIP & RECOGNITION

- **Guest Trainer:** Delivered AI, communication, and career-development workshops to **1,000+ students** across colleges and institutions.
- **Community Builder:** Built a **3,000+ member LinkedIn community** focused on AI, networking, and career development.
- **Favikon:** Ranked **#355 among AI Education creators in India** and **#2,688 worldwide** in AI Education.
- **Hackathons:** Competed in a 24-hour AI hackathon and State-Level SAP HackFest.
- **Speaker's Club Coordinator:** Organized public-speaking sessions and mentored students in communication and presentation skills.
